It is the ability of the artist to see beyond the everyday reality of things, to intuit a variety of meanings, discover new perceptions and then convey it all to us with the utmost of poetry.

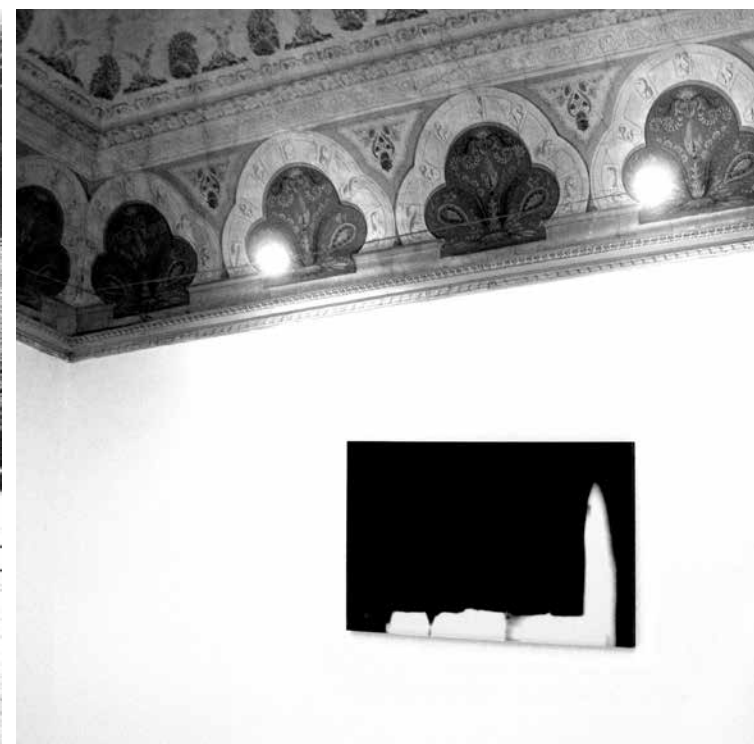

E' capacità degli artisti vedere oltre la realtà delle cose, cogliere le alternative di significato, scoprire una percezione nuova e trasmetterla a noi con un contenuto alto di poesia.

Elia Festa – Milano Italy

Elia Festa was born in Milan, Italy on January 1, 1956. In 1970 he met the painter Ibrahim Kodra and became his student. From '71 –'74, Elia freelanced for the Young & Rubicam Agency, working together with Franco Scheichenbauer, Richard Noble and other photographers. In '89, he began his photographic research project "L'età del Pensiero" (The Age of Thought) with his friend Pierre Restany, which led to his first one man exhibition "Riflessioni" (Reflections), produced by Kodak in '93 at the D'Ars Gallery in Milan. In '92 he exhibited his work during the 25th anniversary show of the Diaframma photography gallery in Milan. In '93 he made portraits of Japanese designers, shown as a one man exhibition at the Frankfurt Trade Show Center. In '93 he began working with the Photology Galleries in London and Milan; from this, new ideas and work came to the fore: "la Habana" 1995; participation in the international "AIPAD Photographers" shows in New York in '96, '97, '98, '99; "Artbasel '96" in Basel, Switzerland. In '95, in collaboration with AFIP, G. Calvenzi, R. Valtorta and K. Bolognesi, Elia produced the book and exhibit "Vita da bambino" (Life as a Child), which traveled throughout the major Italian cities to benefit "Telefono Azzurro", an agency protecting children's rights. In 2000, Elia published a collection of portraits and moods that were ten years in the making; these works were included in "100 al 2000", a review of important international art photographers, published by Photology. In the same year, he held the exhibition "Bla Bla & Co" with the sculptor K.H.Steck at "Studiogalerie" in Hamburg. In 2002 he completed the Landscape project "il Mondo che non c'è" (No Such World). In 2006, in collaboration with the director Salvino Raco, Elia participated in the making of the performance piece "La corsa di Sizwe Kondhile" (Sizwe Kondhile's Race), creating a projection of photographic works on the subject, shown at the Triennale of Milan, with the sponsorship of the Commune and Province of Milan. Inspired by this work, Elia made "It's About Blood", which depicted the pain and soul of the great human sacrifice of African history. In 2007, in another collaboration with Salvino Raco, he made a trailer on international terrorism called "La strategia della tensione" (A Strategy of Tension), with the Commune and Province of Milan and the Lombardy Region at Olinda-ex Gaetano Pini. In 2009 he worked further on and exhibited a preview of "I miei numeri" (My Numbers), a project he carried out from 1989 to 1998. From August to September 2009, he exhibited "La Habana" in Nato, curated by Davide Faccioli. In January 2010, he exhibited a series called "Microbi" (Microbes) at the "Studio Visconti" Gallery in Milan. The same month, the "Photology Gallery" showed "Ho vissuto qui" (I Lived Here), a video created by Elia using footage made in 2010 and from 1993 to 2002.

The background of the image is an abstract composition of flowing, organic shapes in white and black. The white shapes are broad and sweeping, creating a sense of movement and light. The black shapes are more defined and angular, providing a strong contrast to the white. The overall effect is a dynamic and minimalist aesthetic.

RUNNERS

PHOTOSOPHY

Runners

Some of the runners in the Photosophy collection are designed using very large repeats. To minimise waste, it may be necessary to divide such runners into smaller lengths across the width of the roll. This free service is indicated with "NB: For order details see page 58" next to the runners in question. When using this free system, the requested length of the continuous runner should be added after the design number.

Example:

The client requests RF52951662 Lyra on page 68 with a repeat size of 24.37 metres.

The client needs one continuous runner with a final length of 10 metres, which is indicated in the order by adding the length to the RF number as below:

RF5295166210

Instead of producing one continuous runner with a large amount of waste, the 10 metres will be divided across the width of the roll. Please note that the length of a continuous runner should be ordered using intervals of 2 metres, e.g. 8, 10, 12 etc.

In some cases, the runners need to be hot seamed. Please note that a fee is charged for this service.

Runners are supplied with predefined and colour matching edge overlock as standard. To change colour or type, please contact ege Customer Care.
